Key Insights

- The organization has **311 employees** with a **33% attrition rate**, indicating employee retention is an important focus area.
- Employee satisfaction is **4/5**, while average performance is **3/5**, suggesting opportunities for performance improvement.
- Most employee exits are **voluntary**, mainly due to better career opportunities and personal reasons.
- The **Production department** has the largest workforce, making it a key department for HR planning.
- The workforce has a balanced gender distribution, with a slightly higher number of female employees.
- Most employees **meet performance expectations**, while only a few exceed them.
- Online job portals and employee referrals are the primary recruitment sources.

Conclusion: Overall, the dashboard shows that while employee satisfaction is good, reducing attrition and improving employee performance should be the organization's primary HR priorities.
